Objectives and topics

Collective intelligence (CI) is an emerging research field that seeks to merge human and machine intelligence, with an aim to achieve results unattainable by either one of these entities alone. As an interdisciplinary field, collective intelligence requires more innovative theories, tools and empirical applications from the management and technical aspects of service innovation, technology opportunity, E-learning, and fuzzy intelligent systems. Thus, the objectives of this special session are to provide researchers and practitioners with opportunities to present and exchange information relating to practical case studies, projects, or applications in various fields of collective Intelligent Systems. Relevant topics of this special session cover, but are not limited to:

- Technology opportunity
- Social informatics
- Service innovation
- Fuzzy intelligent systems
- E-marketing
- E-learning
- Collaborative learning,
- Decision making

Important dates

Submission of papers: **15 October 2015**

Notification of acceptance: **15 November 2015**

Camera-ready papers: **1 December 2015**

Registration & payment: **1 December 2015**

Conference date: **14-16 March 2016**

Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. Authors are invited to submit their papers electronically in pdf format, through EasyChair. All the special sessions are centralized as tracks in the same conference management system as the regular papers. Therefore, to submit a paper please activate the following link and select the track: **CISTEF 2016: Special Session on Ensemble Approach to Machine Learning**.

Authors are invited to submit original previously unpublished research papers written in English, of up to 10 pages, strictly following the LNCS/LNAI format guidelines. Authors can download the Latex (recommended) or Word templates available at [Springer's web site](#). Submissions not following the format guidelines will be rejected without review. To ensure high quality, all papers will be thoroughly reviewed by the CISTEF 2016 Program Committee. All accepted papers must be presented by one of the authors who must register for the conference and pay the fee. The conference proceedings will be published by Springer in the prestigious series LNCS/LNAI (indexed by ISI CPCI-S, included in ISI Web of Science, EI, ACM Digital Library, dblp, Google Scholar, Scopus, etc.).
