

ICxS 2018

Special Session on Intelligent and Contextual Systems

at the 10th Asian Conference on Intelligent Information and Database Systems (ACIIDS 2018)

Dong Hoi City, Vietnam, March 19-21, 2018

Conference website: <http://www.aciids.pwr.edu.pl/>

ICxS Special Session website: <http://www.icxs.pwr.edu.pl>

Special Session Organizers

Dr. Maciej Huk

Department of Information Systems
Wroclaw University of Science and Technology, Poland
E-mail: maciej.huk@pwr.edu.pl

Prof. Keun Ho Ryu

Department of Computer Science
Chungbuk National University, Korea
E-mail: khryu@chungbuk.ac.kr

Prof. Thai-Nghe Nguyen

Department of Information Systems
Cantho University, Vietnam
E-mail: ntnghe@cit.ctu.edu.vn

Dr. Nguyen Hong Vu

Faculty of Information Technology
Ton Duc Thang University, Vietnam
E-mail: nhvu@it.tdt.edu.vn

Prof. Goutam Chakraborty

Department of Software and Information Science
Iwate Prefectural University, Japan
E-mail: goutam@iwate-pu.ac.jp

Objectives and topics

Context based methods have gained great attention of scientific community over the last several years. Multiple context based and awareness related models have been theoretically and empirically shown to provide significantly better capabilities and performance than their context-free versions. Context aware algorithms have found their application in solutions of various real world problems ranging from person identity and activity recognition, through medical diagnosis and tele-rehabilitation to text classification and financial forecasting. The ICxS 2018 Special Session at the 9th Asian Conference on Intelligent Information and Database Systems (ACIIDS 2018) is devoted to the context based methods addressing classification, ontology processing, context awareness, selective attention and computational awareness problems as well as their use in benchmark and real life applications - especially adaptable, distributed and mobile systems. We want to offer an opportunity for researchers and practitioners to discuss the role of context in different fields, identify and exchange new promising research directions as well as to publish recent advances in this area. The scope of the ICxS 2018 includes, but is not limited to the following topics:

- Theoretical models and frameworks for contextual methods,
- Computational awareness theory,
- Ontology based context modeling,
- Intelligent environments and sensor networks,
- Using context and awareness in robotic, transportation, assistive and medical systems,
- Context-based machine learning methods,
- Implementations of context-aware algorithms, hybrid and distributed contextual systems,
- Neural networks for aware and contextual systems,
- Data mining with awareness and contextual methods,

- Recognition and control of the context during communication (e.g. web chatter bots),
- Scalability and performance modeling and evaluation of contextual systems and applications,
- Context sensitive image and scene processing,
- Storing and reusing contextual knowledge,
- Selective attention, perception and tasks scheduling,
- Context aware reasoning and languages (rule-based, markup-based, other),
- Analyzing, tracking and understanding context of text and multimedia sources,
- Context aware services and computing (personalized, web based, mobile, wearable, other),
- Application of context-aware methods and systems in medicine, engineering, society, business, science, etc.

Important dates

Submission of papers: **1 October 2017**
 Notification of acceptance: **1 November 2017**
 Camera-ready papers: **15 November 2017**
 Registration & payment: **15 December 2017**
 Conference date: **19-21 March 2018**

Program Committee (to be invited)

Adriana Albu, Politehnica University Timișoara, Romania
 Basabi Chakraborty, Iwate Prefectural University, Japan
 Goutam Chakraborty, Iwate Prefectural University, Japan
 Ha Manh Tran, Ho Chi Minh City International University, Vietnam
 Hong Vu Nguyen, Ton Duc Thang University, Vietnam
 Hideyuki Takahashi, RIEC, Tohoku University, Japan
 Jerzy Świątek, Wrocław University of Science and Technology, Poland
 Józef Korbicz, University of Zielona Góra, Poland
 Keun Ho Ryu, Chungbuk National University, Korea
 Kilho Shin, University of Hyogo, Japan
 Lina Yang, University of Macau, Macau
 Maciej Huk, Wrocław University of Science and Technology, Poland
 Masafumi Matsuhara, Iwate Prefectural University, Japan
 Michael Spratling, University of London, UK
 Nguyen Khang Pham, Can Tho University, Viet Nam
 Plamen Angelov, Lancaster University, UK
 Qiangfu Zhao, University of Aizu, Japan
 Quan Thanh Tho, Ho Chi Minh City University of Technology, Vietnam
 Rashmi Dutta Baruah, Lancaster University, UK
 Takako Hashimoto, Chiba University of Commerce, Japan
 Tetsuji Kubojama, Gakushuin University, Japan
 Tetsuo Kinoshita, RIEC, Tohoku University, Japan
 Thai-Nghe Nguyen, Can Tho University, Vietnam
 Yicong Zhou, University of Macau, Macau
 Yuan Yan Tang, University of Macau, Macau
 Zhenni Li, University of Aizu, Japan

Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. Authors are invited to submit their papers electronically in pdf format, through EasyChair. All the special sessions are centralized as tracks in the same conference management system as the regular papers. Therefore, to submit a paper please activate the following link and select the track: **ICxS 2018: Special Session on Intelligent and Contextual Systems**.

<https://easychair.org/conferences/?conf=aciids2018>

Authors are invited to submit original previously unpublished research papers written in English, of up to 10 pages, strictly following the LNCS/LNAI format guidelines. Authors can download the Latex (recommended) or Word templates available at [Springer's web site \(http://www.springer.com/gp/computer-science/lncs/conference-proceedings-guidelines\)](http://www.springer.com/gp/computer-science/lncs/conference-proceedings-guidelines). Submissions not following the format guidelines will be rejected without review. To ensure high quality, all papers will be thoroughly reviewed by the ICxS 2018 Program Committee. All accepted papers must be presented by one of the authors who must register for the conference and pay the fee. The conference proceedings will be published by Springer in the prestigious series LNCS/LNAI (indexed by ISI CPCI-S, included in ISI Web of Science, EI, ACM Digital Library, dblp, Google Scholar, Scopus, etc.). The ICxS 2018 Program Committee will additionally confer the "**ICxS 2018 Best Paper Award**" for the outstanding contribution to research in contextual processing.

Contact

Please send all enquiries on matters related to the ICxS 2018 special session to the following email address: icxs@pwr.edu.pl
