

# ACIIDS 2009-2021 Bibliometrics

## as of April 6, 2021

Proceedings of the Asian Conference on Intelligent Information and Database Systems (ACIIDS), comprising papers presented orally, are published within the Springer's LNCS/LNAI series. In turn, papers presented during poster sessions, are published in the form of chapters of the scientific monographs within the Springer's Studies in Computational Intelligence and Communications in Computer and Information Science series.

Up to date we have published 24 volumes of LNAI proceedings, 2 volumes of CCIS proceedings, 8 volumes of SCI books and 1 volume of IEEE proceedings. All conference publications include in total 1929 peer reviewed papers.

As stated in the Springer Bookmetrix of April 6, 2021 the total number of paper downloads since online publication is over than 2.4 million.

Detailed download and citation data are shown in the following tables.
